MATHEMATICA MORAVICA

AIMS AND SCOPE

Mathematica Moravica presents original research papers in the fields of pure mathematics, applied mathematics and theoretical computer science.

PUBLICATION FREQUENCY

One volume, consisting of two issues, is published annually.

INSTRUCTION FOR AUTHORS

Papers to be considered for publication must be written in English and prepared according to Journal Template: <http://www.moravica.ftn.kg.ac.rs>.

Submissions should be sent in PDF format to the Editorial Office via e-mail mmoravica@gmail.com.

Authors warrant that their manuscripts are their original works, that they have not been published before, and are not under consideration for publication elsewhere.

Mathematica Moravica uses single-blind review system for all papers. Peer-reviewed articles support and embody the scientific method. It is therefore important to agree upon standards of expected ethical behavior of all parties involved in the act of publishing: the author, the journal editor, the peer reviewer, the publisher and the society.

Mathematica Moravica does not have any article processing charges nor article submission charges nor publication fee.
