## AIMS AND SCOPE

Mathematica Moravica presents original research papers in the fields of pure mathematics, applied mathematics and theoretical computer science.

## PUBLICATION FREQUENCY

One volume, consisting of two issues, is published annually.

## INSTRUCTION FOR AUTHORS

Papers to be considered for publication must be written in English and prepared according to Journal Template: <http://www.moravica.ftn.kg.ac.rs>.

Submissions should be sent in PDF format to the Editorial Office via e-mail [mmoravica@gmail.com](mailto:mmoravica@gmail.com).

Authors warrant that their manuscripts are their original works, that they have not been published before, and are not under consideration for publication elsewhere.

Mathematica Moravica uses single-blind review system for all papers. Peer-reviewed articles support and embody the scientific method. It is therefore important to agree upon standards of expected ethical behavior of all parties involved in the act of publishing: the author, the journal editor, the peer reviewer, the publisher and the society.

Mathematica Moravica does not have any article processing charges nor article submission charges nor publication fee.
