Focus and Scope

YUJOR - The Yugoslav Journal of Operations Research is an international journal dealing with all aspects of operations research, systems science, and management science. **YUJOR** publishes refereed papers describing significant results in the above areas whether theoretical or empirical, mathematical or descriptive. The international composition of **YUJOR**'s Editorial Board particularly welcomes manuscripts devoted to applications involving novel ideas and relations with future information technologies.

YUJOR publishes contributed papers, survey papers, tutorial expositions, and technical notes. The Journal also has pages devoted to book reviews, calendars of the forthcoming events, and other short messages about the related activities in the professional fields.

It is hoped that **YUJOR** will appeal to interdisciplinary oriented scientists and practitioners including but not restricted to OR specialists, applied mathematicians and engineers, economists and business administrators, military specialists and entrepreneurs.

YUJOR is included in IFOR's list of primary journals.

Yugoslav Journal of Operations Research is regularly reviewed in:

· **International Abstracts in Operations Research,**

· **Mathematical Reviews,**

· **Zentralblatt für Mathematik,**

· **Referativnyi Zhurnal.**

Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.

About YUJOR

An international journal dealing with theoretical and computational aspects of operations research, systems science and management science

Author Guidelines

GENERAL- Authors are invited to submit three copies of their manuscripts, written in English, double spacing, to anyone of the editors at address of the journal. It is understood to imply that the article is original and unpublished elsewhere. In order to publish the paper as quickly as possible after acceptance, authors are encouraged to submit the final text by e-mail.

ABSTRACT around 100 words of length, should be given.

NAME(S) AND TITLES should be specified: initials or given name first, family name (in capitals) last, full mailing address(es). Titles, both of the article itself and of the sections, should be brief and specific. Sections should be decimally numbered at no more than two levels.

KEYWORDS should be typed in separate lines and numbered in parentheses on the right. Avoid double subscripts or superscripts.

TABLES AND FIGURES are numbered and should have titles and captions.

REFERENCES are indicated by Arabic numerals enclosed in square brackets. In the list of references they are listed alphabetically. List of references should contain items published in open literature: in journals, books, conference proceedings or as technical reports of official institutions. Journal names should be written out in full.

Examples:

[1] Clark, A. J., "Multi-echelonn inventory theory - a retrospective", *International Journal Of Production Economics*, 35 (1994) 271-275.

[2] Miler, D. V., and Starr, M. K., *Executive Decisions and Operations Research*, Prentice-Hall, Englewood Cliffs, NJ, 1969.

RESPONSIBILITIES OF THE AUTHOR

Submitting a manuscript to YUJOR, authors warrant that it is original material, has not been published elsewhere, and is not currently being considered for publication elsewhere. They also warrant that the sources of any ideas and/or words in the manuscript that are not their own have been properly attributed through appropriate citations and/or quotes, and that they have read, understood, and agree to YUJOR's Publication Ethics and Publication Malpractice Statement
