YUGOSLAV JOURNAL OF OPERATIONS RESEARCH

SCOPE

YUJOR — The Yugoslav Journal of Operations Research is an international journal dealing with theoretical and computational aspects of operations research, systems science, and management science. **YUJOR** publishes refereed papers describing significant results in the above areas whether theoretical or empirical, mathematical or descriptive. The international composition of **YUJOR**'s Editorial Board particularly welcomes manuscripts devoted to applications involving novel ideas and relations with future information technologies.

YUJOR publishes contributed papers, survey papers, tutorial expositions, and technical notes. The Journal also has pages devoted to book reviews, calendars of the forthcoming events, and other short messages about the related activities in the professional fields.

It is hoped that **YUJOR** will appeal to interdisciplinary oriented scientists and practitioners including but not restricted to OR specialists, applied mathematicians and engineers, economists and business administration, military specialists and entrepreneurs.

Articles and new books for review should be sent to **YUJOR** Editorial Office.

INSTRUCTIONS TO AUTHORS

In general, authors are advised to follow the Instructions to Authors given in the European Journal of Operations Research. Specifically, we select the following points:

- Authors are invited to submit three copies of their manuscripts, written in English, to the Editors. Manuscripts must be typed in double spacing throughout.
- Titles, both of the article itself and of the sections, should be brief and specific. For use as a running head at the top of printed pages, an abbreviated title of no more than 50 characters should be given.
- Name(s) of the author(s) should be specified always in exactly the same way: initials or given name first, and family name (in capitals) last.
- Full mailing address(es) of the author(s) should be given at the institution where the research has been done. If the current mailing address differs, this should be supplied in a footnote.
- Keywords, no more than five, should be provided.
- Sections should be decimally numbered at no more than two levels.
- Tables and figures should have self-explanatory titles and captions.
- Formulae should be typed in a separate line and numbered in parentheses on the right. Avoid super- or subscripted super- or subscripts.
- References in the text are indicated by arabic numerals enclosed in square brackets. In the list of references they are listed alphabetically.
- An abstract, between 50 and 150 words of length, should be given with every article.

SUBSCRIPTION

YUJOR is published semiannually, two numbers in one volume, approximately 125 pages per number (size 17 cm by 24 cm), i.e. 250 pages per volume.
Price per number amounts to US$ 30,–. Price per volume US$ 60,–.
